The committee has worked to develop activities that will interest a variety of people including parades, dedication of the debate site, a 1858 grand ball, family day with art in the park and an historical pageant. The total cost of the events is estimated by the committee to be \$72,684 with funds coming from the Freeport Community Foundation, Community Foundation of Northern Illinois, sale of commemorative coin sets, in-kind donations, and, in addition, a request of funds from the city in the amount of \$10,000. Alderman Helms questioned the economic return to the Freeport area during the event. Mr. Ed Finch addressed the committee stating that Freeport is receiving support across the state of Illinois and has the ability to become a part of history with not only state but national recognition. Freeport is the second city on the trail of cities to be host of the debate sesquicentennial celebrations.

WATER & SEWER

1. An informational item on the Capital Improvement Projects of the Freeport Water and Sewer was presented by Water & Sewer Project Director Denise Ihrig referring to her letter presented to the committee members this evening. Ms. Ihrig explained the CIP update was presented to the Water and Sewer Commission on January 29, 2008 and is used to identify projects, spending dollars, projected projects and the amount in the reserves of the Water and Sewer Department budget.
2. An Ordinance Repealing the Expiration Clause of Ordinance 2007-36 Regarding Chapter 1052 (Water and Sewer Capital Improvement Fund) of the Codified Ordinances of the City of Freeport, Illinois, was presented by Finance Director Craig Joesten. The Water and Sewer Commission has recommended that such chapter be enacted without an expiration in order to continue to finance capital projects relating to the city’s water system and sewer system in regard to the \$4 surcharge.

A motion to extend the surcharge with an amendment to the sunset clause to one year and send to council for the next meeting – Boldt

Second – Corbin

On a roll call vote of ayes and nays: Aldermen Klemm, Boldt, DeVine, Endress, Corbin, and Helms voted aye. Alderwoman O’Neill voted nay.

Motion carried 6-1.

3. An informational item on the water and sewer rate structure was presented by Finance Director Craig Joesten stating that there needs to be an increase in the water rate structure. With the current meter revenue it is within cents of accomplishing projects on the CIP list. The city is operating on rates through April 30, 2009 and revenue and expenses are out of balance with the number of capital improvement projects that need to be done. This will be discussed at the Water and Sewer Commission meeting in February 2008.
